FIRM OVERVIEW

Maybery Inc. is a Commercial and Property law firm founded in 2019. We understand the everyday legal challenges that business owners face, and that legal issues distract you from your focus. Rather than insisting you sign every client to a comprehensive 100-page contract, we see the bigger picture - that you need to get the sale over the line, and the contract must protect you - but equally, it can't stand in the way of landing the client.

Our Commercial Attorneys have a deep understanding of all the legal aspects of business - from contracts to operations, labour, cashflow, collections, procurement, compliance and corporate fiduciary duties. This experience allows us to provide you with holistic, big-picture advice to protect your business.

Our purpose is to help you build a stronger business that runs better, so you can spend more time on growth. We've built a reputation for helping our clients to navigate legal issues in a practical, affordable way.

OUR VALUES

Trust

You can trust that we will always give the advice that is best for your business - especially when you don't want to hear it.

Excellence

You can trust that you have experts with deep experience handling your case. We will not take on your case if we don't have experience in that area of law.

Ferocity

You can trust us to defend your rights fiercely and ruthlessly. We do not follow the law in blind obedience. We do not submit to authority where the authorities are unjust.

HOW WE HELP YOUR BUSINESS >>>

CASHFLOW

The Problem: Your debtors don't pay on time. You let them get away with it, and your debt book increases. Your cashflow problems get worse - and you start paying your own creditors late.

The Fix: Debt Collection | We ensure your debtors pay on time, and take action against those who haven't. Your cashflow improves. Less risk - creditors are paid. More profit for you.

CUT OUT DISPUTES

The Problem: You keep getting into disputes with service providers and subcontractors. You don't have clear contracts for your commercial transactions.

The Fix: Contracts Drafting and Reviews | We create contracts for all your transactions, and review contracts offered to you by clients / other providers. Cut out disputes, and legal costs of disputes, by 90%.

STAFF PERFORMANCE

The Problem: Your staff are getting away with poor performance and bad attitudes. You don't have the paperwork and procedures to keep them in line **and more importantly**, get rid of them if they won't stay in line.

The Fix: Labour Overhaul | We help you implement every policy and procedure needed to get staff in line - then help you weed out those who won't. Better staff performance means better service to your customers.

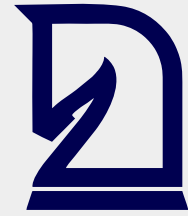

TOUGH DECISIONS

The Problem: You face difficult decisions every day - and your decisions have legal & financial consequences.

The Fix: Legal Advisory | Our commercial knowledge and experience in dealing with hundreds of clients' problems help you make an informed decision, balancing risk vs. return.
